

6. I am a member of AIP. I also founded Arbinet. Arbinet was incorporated in Delaware over sixteen years ago, in 1996. Arbinet served and continues to serve the telecommunications and networking industry, including offering telecommunications services to Delaware residents. It is a wholesale international voice and data communications service provider.

7. I am the named inventor on over fifty U.S. patents and patent applications.

8. Arbinet developed a significant telecommunications patent portfolio both by patenting my and other Arbinet employees' inventions, and by strategically acquiring patents from outside sources.

9. AIP acquired Arbinet's entire patent portfolio in 2011.

10. I am the inventor of asserted U.S. Patent No. 7,724,879.

11. Robert Sorrentino, a former vice-president of Arbinet, is the inventor of asserted U.S. Patent Nos. 6,757,275 and 7,486,662.

12. Jack J. Johnson and William Coyle, are the two inventors of asserted U.S. Patent Nos. 5,606,602 and 5,917,897, and they invented the subject matter covered by these patents while working for Summit Telecom Systems, Inc., an entity independent from AIP and Arbinet.

13. Messrs. Johnson and Coyle have never been employees, members, or associates of Arbinet or AIP. These two inventors are under no obligation to assist AIP.

I declare under penalty of perjury that the foregoing is true and correct.
